Today's Thought

What I want is, not to possess religion, but to have a religion that shall possess me.
—Charles Kingsley.

Native Sons, Daughters

Annual Gathering

The annual gathering of the Native Sons and Daughters was held last Friday, April 17th, in the U.F.A. Hall.

Once again this annual event is over for another year and recorded in the archives of the Association as another successful venture.

Tastefully decorated in green and gold, the old hall took on a brighter outlook, and as the old song says: "It was dressed-up and ready to go." The decorating supervisor, worker, and crew, Lewis Lennon, is due congratulations for his mighty efforts and work.

Mrs. W. H. McCool was in charge of the programme which was as follows:

Address by President S. Pogue
Trio: Three Carstairs Genelemer.
Messrs. Beckner: Sterling and Stewart, accompanist; Miss A. Beckner.

Monologue, G. Y. McLean
Vocal Solo, Miss Johnson
Comedy Duo, Verna and Stan Pogue.

Each artiste was well received and asked to respond to an encore.

Glenn (Heavy) Williams was the M.C. and conducted the floor in a high-class No. 1 Northern manner. The Melody Boys supplied the necessary peppy tunes for the dancing, and "Wrote themselves many letters, as well as Sailing to Treasure Island, to see the Beautiful Lady in Blue, Underneath a Prairie Moon.

It was a jolly evening, full of fun and cordiality, and probably romance. (So far we have not heard of any rings having been given other than phony ones)

Amongst the cut-of-town guests noticed were:

Mr. and Mrs. Norman Mackie, Mr. and Mr. C. Reid, Mr. and Mrs. M. Reid, Miss I. Calhoun and Eva Jarman; Messrs. Ralph Mountain, J. Morton, G. McNabb, E. L. McCandless, E. Riley, Harvey Allen and Fred Schimpf, all of Calgary.

Mr. and Mrs. F. McNaughton; Mrs. C. Ferguson; A. C. and F. McIvor; Misses F. Gough, G. Stewart, Alberta Beckner, Owen Ferguson; Helen Gough, Hazel Vitter, Bernice Waterman; Messrs. Delbert Beckner, Robt. McCloy, Ralph Stewart, A. Klitzke, Ralph Vitter, Robert Sterling, L. Har-nack, C. Sutherland, all of Carstairs.

Miss Alice Collicutt and Mr. G. C. Leeson of Didsbury.

Mrs. J. Lorimer; Roy, May and Betty Gallotti; Nellie, Winnie, Clifford, Ethel and Percy Clayton; Misses E. Bilben, Anne Gardiner, E. Northcott, Phyllis Wallace; Patsey Richey, Marybelle Matheson, Grace Hawkey, Grace Matheson, Yvonne LaMarr, Beryl Willis; Messrs. J. Jenkins, R. Wallace, W. Havens, Murray Wood, D. McKenzie, D. Waters, E. Waters, H. Waters and G. Davidson, all of Airdrie.

In connection with the Bean Guessing contest, when counted the jar contained 4,064 beans, and the prizewinners are:

Robbie D. Sterling, 4029
James Sackett, 4025

It is anticipated that a small balance will be credited from the event and in view of the prevailing conditions this is considered very satisfactory.

Community Band.

The third annual meeting of the Carstairs - Crossfield Community Band was held on April 12th. There was a large turnout, and the band made preparations for a busy summer. Weekly practices will be resumed in Carstairs and Crossfield alternately. The band plans to play in the two towns Saturday nights alternately during the summer months.

The following officers were elected:

President, H. Beckner
Vice President, C. Ferguson
Musical Director, H. Olsen
Ass't Music Director, S. Willis
Secretary Treasurer, W. Stauffer
Business Manager, Jack Ing
Directors, Miss Evelyn Beckner
Mt. E. Fox
A. Klitzke
M. Martinson
Librarian, Earl Fox.

George James Vance Laid to Rest

George James, infant son of Mr. and Mrs. Ivan S. Vance, Madden, died after a very brief illness of only five days, on Tuesday, April 14th 1936, at the age of 3 years and two months. The remains were laid to rest in the local cemetery on Saturday last. He leaves to mourn his loss, his parents, Mr. and Mrs. Ivan Vance, and his Grandparents, Mr. and Mrs. James Vance.

Burial Services were conducted from the United Church Crossfield, Rev. E. Longmire officiating.

George Vance had always been a healthy child up until his fatal illness.

The deepest sympathy of the many friends and neighbors goes out at this time to the parents in their loneliness and sorrow.

"Sleep on beloved, sleep and take thy rest;

We love thee well, but Jesus loves thee best;

Goodnight!

Calm is thy slumber as an infant's sleep

Thou shalt wake no more to weep

Thine is a perfect rest, secure and deep

Goodnight!

Entombed Men Released.

At approximately 10 o'clock Wednesday night (April 22nd), Dr. Robertson and Alfred Scadding were successfully reached, and released from the mine at Moose River, N.S. where they had been entombed since Easter Monday.

The third man, Herman Magill succumbed last Monday.

The rescue was a long, arduous task, fraught with many dangers and difficulties, but the gallant mine-ers who so quickly responded to the call, counted not the cost, but carried on and won through.

Is Someone

Geography at Fault

It was with interest that we read the official Programmes at the Calgary Arena on Monday night, (printed in Toronto) giving Hi-lites on the players of the Maple Leafs and the Black Hawks. Some ten years ago the writer remembers the brilliant defenceman of the Black Hawks then a youngster attending the Vermilion Alta. school, and was surprised to notice that the programme read as follows, "Art Wiebe of Vermilion Saskatchewan," it was a new one on the writer, and we pass on this information to the Vermilion Alberta Board of Trade, Publicity Department. Just to make sure that there was no Post Office of the name Vermilion Saskatchewan, we checked up in the P. O. Directory, and found that at least OUR Geography is correct in this instance.

Weddings

SACKETT-GOUDIE

A quiet wedding was solemnized at Calgary on Wednesday April 8th, at the residence of the Rev. J. R. Brown, when Rachel Christina Goudie, only daughter of Mrs. W. H. Ford, of Rutland B.C., became the bride of James Arthur Ralph Sackett, son of Mr. and Mrs. J. A. Sackett, of Crossfield, Alta.

The bride wore a brown suit with shoes and hat to match and carried a bouquet of Pink Carnations.

After the ceremony the young couple visited at the home of the Groom's parents preparatory to taking up residence at Cheadle, Alberta.

STONG-STEWART

A quiet wedding took place in St. John's Anglican Church, York Mills, April 10, when Miss Clara Stewart, daughter of Mr. and Mrs. H. T. Stewart, Crossfield, Alberta, became the bride of Mr. Joseph W. Stong, son of Mr. A. W. Stong and the late Mrs. Stong, of Maple, Ontario. Rev. A. C. McCollum officiated and during the signing of the register Mr. John C. Drew, cousin of the bride, sang "The Rose God Gave to Me."

The bride, who was given in marriage by her uncle, Mr. E. F. Wood, wore a gown of triple sheer rose crepe with a matching hat and carried a bouquet of bridal roses and lily-of-the-valley. Her cousin, Miss Clara Wood, was bridesmaid, and was gowned in pale grey chiffon with a small grey hat. She carried spring flowers. Mr. Arthur Stong, brother of the groom, was best man.

The reception was held at the home of Mr. and Mrs. E. F. Wood, uncle and aunt of the bride, where

Tennis Club

Holds Meeting

The Annual Meeting of the local Tennis Club was held in the Bunk Chambers Monday evening, April 20th, President Mossop in the chair.

Routine matters were dealt with and the election of officers. The results were as follows:

Hon. President, Frank Mossop
President, Merle N. Jones
Vice-President, A. D. Stevens
Sec-Treas., Mrs. A. D. Stevens
Grounds Committee, D. W. Carmichael and John Dougan.

Ladies Committee, Mrs. C. H. McMillan, Mrs. Carmichael, Mrs. Amery and Mrs. Mossop.

Tournament Committee, A. D. Stevens and F. Mossop.

Fees for 1936: Ladies \$2.50, Gents \$3.50, Students \$1.00, Family ticket \$6.00, Country members \$2.00.

A prevailing charge of 25 cents for adults and 10 cents for juveniles will be enforced this year for Court Fees. This means for those other than members who wish to play occasionally.

It was resolved and passed on motion that the Crossfield Tennis Club withdraw from the Cup League Tournaments and arrange to have instead more friendly competitions.

A fine Auto Rug has been donated by Mr. Mossop to the club to be raffled-off and proceeds used for the Club's benefit.

All fees for 1936 are asked to be paid in to the Secretary not later than 24th May. It is just possible that this arrangement cannot be fully fulfilled by some, and if this is the case they should get in touch with Mrs. Stevens and make definite and binding arrangements regarding paying of fees for 1936.

On the books are still outstanding many 1935 fees, and if the Club is to pay its way these should be attended to at once, see the secretary now and get this matter cleared up, those of you who are in arrears.

The Diocesan

Junior Rally

The Diocesan Junior Rally was held on Saturday, April 18th: in St. Stephens Parish Hall, Calgary, with 157 children present.

Fifteen girls from Crossfield made the trip under the supervision of the Superintendent, Mrs. A. D. Currie.

Violet Currie contributed to the programme a Piano Solo, and seven other members, Nora Fleming, Vida McMillan, Irene Sefton, Elsie Patmore, Mary Griffiths and Elsie Mossop sang, "I Must be True," accompanied by Violet Currie.

The children all voted they had a grand time, and through a misunderstanding one of the cars did not turn up when the hour of departure had arrived. However, this did not worry the young members, so in they piled into one car, eleven of them, and this, together with Mr. and Mrs. Currie, made thirteen in all.

To the tune of that new song hit, Wahoo, the road was regaled lustily, and who can say thirteen is an unlucky number after this, it was Wahoo from Calgary to Crossfield, and how these lusty young voices extolled Wahoo.

Safe and sound they arrived back in Crossfield, tired but happy after a Perfect Day.

Mrs. Wood received the guests. After a trip by motor, Mr. and Mrs. Strong will reside in Toronto.

The Queen Mary

Disappointment is probably in store for millions in the British Empire who have conceived the impression that the first trip of the Cunard-White Star's superliner, the Queen Mary, scheduled for May 27, is a world sporting event of the first magnitude with the blue ribbon of the Atlantic for speed as the stakes.

The speed record for the Atlantic was held for the British for 22 years by the Cunard Steamship Company's Mauretania until August, 1929, when the title passed to the Rex, flying the flag of Italy, and has not since been recovered by any vessel carrying the Union Jack.

Millions have been led to believe that the Queen Mary is expected to win back the speed supremacy of the North Atlantic for Great Britain and as a result of the great amount of publicity given to this vessel during the course of her construction and on the occasion of her launching at Clydebank a few weeks ago they confidently anticipate that this consummation is to be achieved by the new boat, but this, according to the London Times, is not the purpose of the construction of this great steamship.

On the contrary, the Times shatters this and other misconceptions of the purpose and mission of the Queen Mary. Not only was she not built to tread the speed supremacy of the North Atlantic from another country but, we are told, she was not designed to be the most luxurious liner afloat, despite reams of descriptive material which has been published emphasizing the lavish nature of her appointments and equipment.

"The problem," says the Times, "was not to build a ship so big and so fast as to 'stagger creation'. The problem all along was to build the smallest and slowest ship that could form one half of a weekly service."

Continuing the Times says: "Speed is very expensive; and a ship must be big to pay for it. On the other hand size is also expensive; and there is need for nice calculation. The Queen Mary is not meant to be the biggest and fastest ship afloat. She is not meant to be a 'luxury' ship at all. It has been made perfectly clear that the luxury will be there for those who seek it; but one advantage of great size in a ship is that room can be made for all sorts of people, and the Queen Mary is not for the rich only."

However, if the Queen Mary is not designed to be the largest ship afloat or the fastest boat on the seven seas or even the most luxurious, she has claims to distinction which make her an impressive monument to the brains responsible for her creation, exemplified in the words stability, strength and safety and these attributes have been achieved without undue sacrifice of size, speed and lavishness.

On the contrary, the Queen Mary is of noble proportions and embodies the last word in naval architecture, marine engineering and scientific research.

Every conceivable device has been adopted to justify the claim made for the Queen Mary that she is the safest ship afloat and that passengers aboard her will be safer than in their own homes. To quote a recent issue of Pearson's Weekly she is "so well equipped with scientific instruments that it will be literally possible, with a little adjustment, to send her from Southampton to New York without a man aboard," and "she will be able to steam through impenetrable fog at 40 miles per hour, automatically steered and protected from collision with ships and objects."

These devices include a "radar searchlight" with which the Normandie is also fitted, a continuous beam of ultra-short radio waves which sweep the horizon ahead of the bows of the advancing vessel and record obstructions on a sensitive receiver.

Another is the infra-red ray detector to locate other vessels or icebergs at a great distance in dense fog or black night. "The latest detector of this kind," says the writer in Pearson's Weekly, "is so sensitive to changes in heat waves that it can detect a man through a mile of heavy fog by the heat of his body."

The boat is equipped with an automatic helmsman, consisting of a gyro, electrically connected with the steering gear in such fashion that if the vessel defects one half degree from the set course it will automatically be swung back on the true course. An "echo sounder" will guard the vessel against striking a submerged wreck or iceberg growlers, which hardly show above the surface.

The Queen Mary is practically fireproof. Each cabin is safeguarded by a thermostatic alarm which automatically sets water sprinklers in action when the temperature rises above a certain level and the "electric eye" will be used to detect fire in the holds. At the slightest trace of smoke the electric eye will sound the alarm and release a stream of carbon dioxide gas, automatically selecting the burning hold and smothering the blaze.

No wonder Purity Flour is a favorite for bread. Its richness in nourishing gluten is supplied by Western Canada hard Spring wheat. A strong flour that goes farther—economical.

Best for all your Baking

New Uniform Calendar Plan

Provides International Holiday And Five Business Holidays Yearly

With a suggestion that it be put into effect on January 1, 1938, Rev. Father Jacob Wilhelm of Regina has drafted a reform calendar which provides for the days of the week always falling on the same dates of each month.

Under Father Wilhelm's plan the four quarters of the year are equal with 31 days for the first month of each quarter and 30 days each for the other two months except that 31 days are provided for December to give a total of 365 for the year. An extra day is wedged in between June 30 and July 1 every fourth year to be known as "leap day."

The year will start with January 1 labelled as "international holiday" and January 2 is to be a Sunday with December 31 a Saturday. If the calendar were adopted Good Friday would always fall on April 7 and Easter Monday on April 8.

It is suggested that Saturdays falling on January 1, April 1, July 1 and October 1 be made business holidays, giving with international day on January 1, five business holidays each year. The first four, according to Rev. Father Wilhelm, would be known as rest days when "everyone should carry out a review of his debts or profits."

The calendar is designed to offset objections of the Christian churches to the recently announced plan to provide for a year of 13 months containing 28 days each.

Patient Revived

Apparently Dead For Some Minutes Is Resuscitated On Operating Table

Another case of a patient who "died" on the operating table only to be brought back to life again by heart massage and injections of adrenaline, is described in the current issue of the British Medical Journal.

The patient, Ernest Hinsley, about 45, of Waterloo, Ashton, is now normal again, but has no memory of having been to the operating theatre.

His heart, said Dr. J. V. Fiddian, stopped without warning and Hinsley ceased to breathe. Efforts at resuscitation began immediately and the "usual two or three minutes were wasted in fruitless artificial respiration."

Dr. Fiddian then resorted to cardiac massage, and continued this for two minutes without feeling any spontaneous movement of the heart. He then injected intra-cardiac adrenaline into the ventricle.

"The effect," he writes, "was immediate and almost magical. With each squeeze that followed the heart was felt to be enlarging and suddenly it began to beat wildly."

"It was several minutes more before spontaneous respiration was established, but after that there was no further immediate anxiety."

"The patient was returned to bed with his heart still beating tumultuously, in a manner strongly suggestive of an overdose of adrenaline."

Was Not Photographed

Smallest Book Printed With Ink From Copper Plates

The world's smallest book, which is a quarter of an inch long, three-sixteenths wide, and weighs a grain and a quarter, is for sale in London. The most surprising thing about the text—which is E. F. Thompson's rendering of selected verses of the Rubaiyat—is that it is properly printed from minute copper plates, with ink on paper, and not merely produced by photograph. The pages are etched by hand and bound in leather. The verses look like small dark stains on the paper, and can be read only with a magnifying glass. When the book was being printed in Worcester, Massachusetts, in 1922 it was found that the vibration of a passing motor-car was enough to blur the type.

Distribution of Jews

A total world Jewish population of 16,240,000, of whom 5,000,000 or 30 per cent, live in the Americas was reported by the Jewish Scientific Institute. The survey shows the figure had increased 1,300,000 in the last 10 years. More than 10,000,000 Jews, or two-thirds, live in three countries. The United States has 4,500,000, Poland has 3,150,000 and Soviet Russia, 3,080,000.

Fliers usually find it necessary to use their oxygen apparatus when they reach an altitude of about 18,000 feet.

Argentina is estimated to contain 200,000 square miles of valuable forests.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pints of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. One little pill gets it into the bowels and you feel better. Ask for Carter's Little Liver Pills by name! Stubbornly refuse any other else.

Overcomes Difficulties

Youth Born Deaf And Dumb Learns To Talk And Graduates From University

Born deaf and dumb 23 years ago, Hillis Arnold, University of Minnesota graduate, has accomplished two objectives—speech and completion of a three-year mural painting project.

The youth's mother, Mrs. A. L. Arnold, said she taught Hillis lip reading. She patiently enunciated words slowly. Hillis repeated them by watching how she formed the syllables with her lips. Unable to hear, he was unable to control his tone.

His mother with her hands, indicated when he was speaking too loudly or too softly. To-day he speaks in a clearly understandable moderate tone.

The youth entered the university engineering school in 1931. In his senior year he began an art project, a series of murals depicting the work of various engineering professions. To-day the job—100 feet of murals, five feet high—was completed and he was free to devote his time to another job, as instructor in the Minneapolis Institute of Art.

Building Flying Boats

Imperial Airways To Operate A World-Wide Service

More than 1,000 skilled men are engaged at Rochester, England, in building a fleet of 29 giant flying-boats for operation by Imperial Airways on world-wide services—including the Atlantic.

There are two decks to the new flying boats, lower being for passenger accommodation and the top for crew (two pilots, two stewards, and a purser), mails and baggage.

The gross weight of the new ships will be 17½ tons, and they will be powered by four 700-h.p. engines, giving a maximum speed of nearly 200 m.p.h. and a cruising speed of 155 m.p.h. Underneath the pilots' cabin is a comfortable smoking room, and there are two more cabins more than eight feet high with adjustable lounge chairs.

There is daytime accommodation for 24 passengers and for 16 sleeping in bunks by night.

SELECTED RECIPES

CHERRY ROLL

Temperature: 425 degrees F. Time: 25 minutes.

½ cup "Crown Brand" Corn Syrup
1 pint jar cherries (canned)
½ cup sugar
1 teaspoon cinnamon
3 cup boiling water
1 tablespoon butter

Tea biscuit batter
Drain cherries and pour juice in a saucepan. Add the water, sugar and "Crown Brand" Corn Syrup. Boil 5 minutes. While the syrup is boiling make an ordinary tea biscuit batter and roll it out in oblong roll. Spread the cherries over the dough; sprinkle with cinnamon, dot with butter and roll up like jelly roll. Place the roll in an oblong pan; pour the hot syrup over it and bake in a hot oven.

A limburger-cheese-sniffing contest was held in Monroe, Wis., in 1935.

Issuing New Coinage

Canada Could Improve On Design When Making Change

With the coronation of King Edward VIII, Canada, in common with the rest of the Empire, will issue a new coinage. Would not the present, while we still have a year or so, be a good opportunity for the Government to call together a body of artists and experts to submit designs for coins that would be a little more representative of Canadian artistic accomplishment than the exceedingly unattractive ones which, year after year, generation after generation, reign after reign, come from the mint with such deadly monotony?

Tradition declares that upon each accession the effigy of the new Sovereign upon the obverse side of the coin shall be reversed. When we have done that we in Canada are apparently content to allow the funeral wreath of maple leaves on the reverse side—which on a slightly worn coin much more closely resembles those of the cabbage—and the rather sprawling legend within it to continue to "symbolize" Canada. The comparatively new Canadian nickel is one of the ugliest coins in circulation anywhere.

Other countries are paying increasing attention to the attractiveness of their coins from an aesthetic point of view. Some of the newer United States specimens are things of real artistic beauty, indicative of the country's progress in the arts of sculptural design and modelling. There are surely competent artists in the Dominion who would welcome an invitation to compete for designs for coins of different values, and out of such competition there might come a coinage of which, from an artistic point of view, Canada could be legitimately proud.—Montreal Star.

London's First Film Show

Moving Pictures Taken Forty Years Ago Again Screened

London's first film show—40 years ago—came to life again recently at the Polytechnic Cinema to celebrate the 40th anniversary of the introduction of moving pictures to the country. The original projector used by M. Lumiere, the French pioneer, was used.

One gathered something of the thrill for an audience that time of the spectacle of Trewey on the screen giving his changing hat performance and of Louis Lumiere's brother having tea on the lawn with his wife and baby.

When, subsequently, the pictures were thrown by up-to-date apparatus on to a large screen, one realized how good the photography was in the circumstances.

The changing of the guard at St. James' Palace, children playing in the surf, the falling of a wall, a charge of the French Carabiniers, were some of the relics shown.

There was, too a deliciously quaint "comic," indicating the popular perception of the motor car.

Other interesting features, showing how the newsworld was advancing, were the animated records of the funerals of Queen Victoria and King Edward VII, taken by Cecil Hepworth.

He recalled his concern, at Queen Victoria's funeral, when he found that the noise of his home-made camera was disturbing the silence of that occasion and how King Edward, looking round, halted the procession so that the picture might be taken.

Professor (to unruly freshman)—"Tell me sir, what has become of your ethics?"
Freshman—"Oh, sir, I traded it in long ago for a Hudson."

Seedless watermelons have been grown in horticultural experiments.

Find Out

From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. Aspirin is a registered trademark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

Demand and Get "ASPIRIN"

Something New In Pictures

Three Dimensional Animated Cartoons To Be Shown

Three dimensional animated cartoons which can be shown with regular movie projection equipment and without use of any gadget by audiences were announced by Max Fleischer, pioneer in the animated cartoon field.

Fleischer declares his invention has passed the experimental stage, and that full length animated cartoons using the three dimension throughout will be released within six months.

Fleischer obtains the third dimensional effect by foreshortening the perspective of the camera to six feet and using a special lens which does not focus directly on the objects photographed.

Floods And Sun Spots

Are Closely Connected Is Opinion Of

Floods that have swept the eastern part of North America during the past few weeks are "definitely correlated" with sun spots "and we may expect damp, rainy weather for the next four or five years because these spots are fast reaching a maximum intensity," Dr. Clyde Fisher, director of the Hayden Planetarium and fellow of the Royal Astronomical Society, said in a lecture at Providence, Rhode Island.

Cockney woman (charged with assaulting her husband): "I asked 'im if 'e loved me, an' 'e was so long thinkin' about it that I 'it 'im with a mop."

RELIEF FROM ECZEMA

A Lady writes: I had Eczema break out on my leg and it did almost everything, but it did no good. Then I tried Mecca and got relief from the itching, and itching. I cannot speak too highly of Mecca.

Between Ourselves

Throughout this past week everyone in Canada, aye the whole American Continent has followed with interest and heart felt prayers the valiant rescue work being conducted at Moose River N. S. to extricate from their living tomb the three men entrapped Easter Sunday through a cave in.

Totting night and day, working under adverse conditions counting not the cost to themselves, man after man responded to the call, and hour after hour the rescue work went steadily on, the Country to a man behind them.

It is indeed something for each and every one of us to think and ponder over, to feel, to realise, how quickly the response to aid others in distress was answered, to fully fulfill, the teaching "Do ye unto others as ye would have them do unto you."

Everyone could not go, but those of us far from the scenes of the rescue, breathed many an anxious prayer that the gallant men carrying on below, in danger themselves at all times, would have their efforts in this gigantic task crowned with success.

What courage, what endurance, was shown by the entrapped men themselves, hearing the efforts of the rescuers, coming nearer, and bearing up cheerfully under the trying circumstances.

It is with regret that we learn of the passing of one of the men Herman Magill, but at the same time were affected strongly by the stamina, courage, and fortitude, of the remaining two, Dr. Robertson and Alfred Scadding.

To all in this gallant rescue work in any way matter shape or form, comes the voice of the Canadian People, "Well done thou good and faithful, yours will be the higher reward."

Central Banking

Governor G. F. Towers of the Bank of Canada evidently does not believe in enveloping the Bank of Canada in a cloak of mystery. His address at the annual shareholders' meeting must have amazed executives who subscribe to the opinion that bankers must be seldom seen and never heard. Some with less courage would have side-stopped controversial questions, but Governor Towers apparently believes otherwise. His frank treatment of Canadian problems was received favorably by citizens generally. In discussing central bank co-operation the central bank head went deeply into one popular fallacy when he said, "the Bank of England, is supposed by some persons to exercise a universal and malign influence in financial matters the world over. I should like to say that, in my opinion, this is just nonsense, and that in any case one can safely rely upon the central banks and governments of the respective Dominions to see that no undue or pernicious influence is exerted. In those unsettled times the real problems of central banks are grave enough in all conscience it would be regrettable if the burden were increased by the addition of imaginary complications." —Burroughs Clearing House.

Ether Waves
 By Osmat

Osmat will be glad to answer your Radio Questions. Address him in care of the Chronicle.

Short-Wave Attractions
 Interesting Pastime

For strange radio fare that is never found on the regular broadcast bands it not necessary to leave the shores of our own continent. Beyond 1500 kilocycles there are countless services—commercial, governmental and amateur, that offer unusual features.

The aviators that fly the skies over North America—carry on conversation with their home airports. Occasionally, when a pilot finds himself in difficulties, the moments that follow are as full of thrills to the radio listener as the climax of the most exciting radio drama.

Police departments from the Atlantic to the Pacific are equipping their patrol cars with short-wave sets, and the orders that go out from headquarters are easily caught on short-wave radio sets. Real Enthusiasts sometimes spend an entire evening shifting from one police wave to another as warning bell or whistle announces that a patrol car is about to be dispatched to the scene of a crime.

Amateur radio operators, there are over 40,000 of them, hold forth at numerous spots on the short-wave dial, sometimes using code, but at other times conversing in voice.

And sandwiched between these services are the commercial phone stations. These stations form the transoceanic links in two-way conversation between telephone subscribers in this country and in foreign lands. Privacy is sometimes insured by scrambling or intentionally distorting the speech thereby producing a gibberish of noise. While these conversations are absolutely unintelligible to us, they are unscrambled at the authorized point of reception and converted back into understandable speech.

Become familiar with these short-wave attractions yourself and you will find it a very interesting pastime.

Lemon Biscuits

- Two cups white sugar
- Two cups lard
- Rub to crumbs and add three eggs
- One cup milk
- One tablespoonful oil of lemon
- Two and one half tablespoonfuls baking ammonia
- Pinch of salt.

Add enough flour to roll up into oblong shapes and bake in hot oven.

Date Loaf

Over one cup chopped dates, sprinkle one teaspoonful soda, and over this pour one cup boiling water. While this is cooling cream one cup sugar and one tablespoonful butter, one teaspoonful vanilla. Then stir this into first mixture and add one teaspoonful salt and one and one-half cups flour. Mix well and put in a well buttered pan, lined with paper. Bake in a slow oven for one hour.

CHRONICLE

CHANGES IN THE B. N. A. ACT MAY HAVE TO WAIT

Ottawa.—Constitutional reform, which seemed almost a certain issue at the opening of parliament in February, will probably go over until next year, according to the best information available here.

Some weeks ago it was apparent that the efforts engaging the attention of Dominion and provinces to obtain power for Canada to amend the British North America Act without recourse to the British parliament could not succeed during the present session. It was believed, however, that certain specific amendments would be sought in a joint resolution by the house and senate.

It is now considered unlikely that any amendments will be asked during the present session. A resolution is on the order paper containing a petition to Westminster to amend the British North America Act so that a loan council scheme of Dominion-provincial financing might be set up, but recent developments have caused at least temporary suspension of these plans.

At the Dominion-provincial conference in December, soon after the present government took office, it was agreed that certain specific amendments to the constitution were needed urgently. With New Brunswick dissenting, it was agreed further that Canada should obtain the right enjoyed by other dominions of amending her own constitution.

Plans were launched by which agreement might be reached on a re-amendment of the British North America Act, or a specific amendment put through, so that Canada might enjoy constitutional autonomy. A sub-committee of experts has been working to that end for many months.

Since all provincial legislatures soon will have concluded their sessions for this year the possibility of carrying out this plan during 1936 has ended. It will almost certainly be a major feature of the 1937 sessions of federal and provincial houses.

New Hospital For Aklavik

Plans Completed But Money Is Not Yet Available

Toronto.—Plans have been completed for erection of a new hospital at Aklavik, Arctic trading post in the Northwest Territories, but Rt. Rev. A. L. Fleming, Anglican bishop of the Arctic said he didn't know where the money was coming from. About \$25,000 is needed for the structure to be replaced by a hospital destroyed by fire April 6.

Contributions are coming in slowly, but it is feared the necessary amount would not be obtained in time for purchasing supplies for work this year. Bishop Fleming said: As the hospital is situated 1,661 miles north of the railway, orders for materials must be placed within three weeks if the hospital is to be rebuilt this year.

War-Type Ships Moved

Britain Sends Anti-Submarine Craft To Gibraltar

London.—With tension and uncertainty mounting in Geneva, the admiralty has moved a new, secret type of anti-submarine craft to Gibraltar to bulwark the warships scattered through the Mediterranean. Publication of the admiralty list showed 15 especially-designed ships described as mine-sweeping trawlers had arrived at Gibraltar from home ports within the last week. Most of them left the Portland base on Easter Sunday.

Five destroyers meanwhile arrived at Gibraltar from the eastern Mediterranean.

Wants To Join League

Wellington.—Prime Minister Michael Savage said that New Zealand was endeavoring to secure a seat on the council of the League of Nations in September in succession to Australia. He said that if a New Zealand cabinet minister was then in Europe he would take precedence over the high commissioners as the representative of the island dominion at Geneva.

Tenders Accepted

Ottawa.—Finance Minister Dunning announced tenders had been accepted for the full amount of \$25,000,000 Dominion of Canada treasury bill due July 15. The average discount price of the accepted bills was \$90.78138 and the average yield was 479 per cent.

Canada's Resources

Development Of Our Natural Resources Will Set New Pace

Montreal.—Development of Canada's natural resources during the next 25 years, if there is peace, will grow more than it has during the past 75. Dr. H. M. Tory, of Ottawa, former president of the University of Alberta and honorary director of the Association of Canadian Clubs, said at the annual meeting of the Women's Canadian Club here.

There was every justification for an optimistic attitude in Canada he said. The right combination of land and climate had created conditions to make a civilization.

Canada was a large country, communications were easy, centres of population were close at hand, he continued. The people, the two greatest civilizing and colonizing races in the world combined into one nation, were virile, intelligent and progressive.

The past generations had made a magnificent job of Canada, Dr. Tory said. Mistakes had been made, he admitted. Canada was even now paying the piper for stupidity in early transportation development, but, he said, there never would have been a Canada had it not been for the railways.

Dr. Tory praised the tendency to study national problems. Unity must be maintained, he said, and provincial barriers should be broken down even more than they now are. Canada must take leadership in intellectual movements, he concluded, for an educated people was the foundation of civilization.

Will Not Consider Plan

British Columbia Not Interested In Creating Provincial Bank

Victoria.—Premier Pattullo of British Columbia arrived home for a brief visit before returning to Ottawa for continuation of negotiations with the Dominion government which were interrupted by the Easter holidays.

The premier, who arrived by aeroplane, said discussions between British Columbia and the federal administration do not concern the receipt of Dominion aid in connection with a \$3,500,000 bond issue maturing May 15, but rather settlement of general policies. These policies, he said, include relief, financing and other matters.

"British Columbia has no thought whatever of creating a provincial bank, and has not for a minute considered it," he said in reference to a recent announcement the government of Alberta would suggest co-operation of the coast province with Alberta in establishing such a bank.

Caused Much Discussion

Members At Geneva Are Divided Over Regional Leagues

Geneva.—A move by some of the Latin-American countries to create an all-American League of Nations caused much discussion and sharply divided reaction here.

Some league circles feared this would be the beginning of disintegration of the Geneva institution. Others, however, believed these regional leagues could constructively dovetail into a universal League of Nations.

League officials said they were convinced economic and financial sanctions must be applied universally against any aggressor nation, but they believed these regional groups could liquidate regional conflicts and apply military sanctions in case of necessity.

Appeal For Medical Aid

London.—The government has turned over to the British Red Cross an urgent appeal from the Ethiopian government for medicine and physicians to treat poison gas casualties. The appeal said more than 1,000 sufferers lie in the most acute distress due to the government's lack of knowledge for treatment.

Compulsory Subjects

Toronto.—English, social sciences, health education and business practice are to be compulsory subjects under the revised course of study to be introduced soon in Ontario schools. Hon. Duncan McArthur, deputy minister of education, told the public school department of the Ontario Education Association here.

Negotiations Dropped

Calgary.—Negotiations for the sale of the Alberta government telephone system to a United States syndicate have been definitely dropped for a year at least. Hon. W. A. Fallow, provincial minister of public works and telephones, stated here.

Advocates Mining Policy

Would Cure Canada's Unemployment Opinion Of Supreme Court Judge

Vancouver.—Mining directly and indirectly could take every able-bodied man presently unemployed out of unemployment, Mr. Justice A. M. Manson of the Supreme Court of British Columbia said in an address to the annual meeting of the British Columbia division of the Canadian Manufacturers' Association.

He advocated a Canadian national mining policy and a conjoint policy between the Dominion and the mining provinces—"a policy that will give to those who hazard their money in the development of our natural wealth, and so often lose it, a chance to get their capital back—no taxes for the first years of production."

"Such a policy," continued Mr. Justice Manson, "should stabilize mining taxation for a period of years. It must do that if we are to induce capital to come abroad to Canada. Mining capital will not venture on a big expenditure knowing that at the very moment it brings a mine to production its margin of profit may be eaten up by increased taxes, Dominion and provincial. Such a policy should fix the rate of taxation so that it will be possible to recover the maximum of low grade ore."

MANY MATTERS CLAIM ATTENTION OF PARLIAMENT

Ottawa.—Interest in parliamentary activities from now to prorogation will be divided among the red and green chambers and the half dozen committees which are faced with heavy agendas and which have not yet really commenced their work. Radio, railways, pensions, elections, privileges of the house speaker and agriculture are subjects of special committees of the house, and all are expected to ask for permission to sit while the house is sitting, which will mean many empty seats in the green chamber from now on.

Of outstanding public interest will be the committees on railways, radio, pensions and agriculture. Election reform will be dealt with at some length, but no legislation is expected at the present session in view of the fact it is not likely to be needed for some years. Questions of privileges of the speaker during the interim of defeat of a government and election of a new speaker will deal with matters of procedure.

To the railway committee will go a bill to nullify the Canadian National-Canadian Pacific legislation of three years ago under which the board of directors was replaced by a board of three trustees. It is now the intention to restore the director system and the whole question of government railways and their huge annual deficits will probably be threshed out in committee.

THE CORONATION CHAIR IN THE KING'S CHAPEL

The Coronation Chair, made by Walter, the King's painter, at the command of Edward I. (1200-1301), to contain the stone of Scone, brought by the King from Scotland, will be used by King Edward VIII. when he is crowned during the Coronation in May 1937. In this chair every Sovereign has been crowned since King Edward II. The famous stone is under the seat of the chair.

PARALYZED PILOT

Although she has never walked since an attack of infantile paralysis at the age of three, Miss Betty Snell, of St. Thomas, Ont., recently won her private pilot's license. Miss Snell, who has to be carried to her plane and lifted into the cockpit, seeks to become a commercial pilot.

Feted By Countryman

Canadian Club Of New York Honors Edward Johnson

New York.—Edward Johnson, manager of the Metropolitan Opera who has concluded his first season with great success, was feted by fellow countrymen at the annual reception and presidents dinner of the Canadian Club of New York.

The club president, Ernest W. Appleby, insisted the honors of the evening be shared by Mr. Johnson. Mr. Johnson told the distinguished company gathered in the club quarters, of his plans to spread "the love of opera" to the masses, through the press and over the air. Another means to this end would be the Met's spring season, opening in May, at prices ranging from 25 cents to \$1 tops.

Named For Peace Prize

Forty Different Countries Have Suggested Dowager Lady Aberdeen

London.—The Dowager Lady Aberdeen, wife of the former governor-general of Canada, whose name has been put forward as a candidate for the Nobel prize in her capacity as president of the International Council of Women, received the support of women's organizations in all parts of the world from the beginning.

Her name was submitted from 40 different countries where the National Council of Women affiliated to the International Council has, under her guidance, worked steadily in the cause of peace for several years.

Fears Of Potato Shortage

Crop Report Shows Farm Stocks Lowest Since 1930

Ottawa.—Fears of a potato shortage in Canada appeared well-founded after release of a crop report by the Dominion bureau of statistics.

Lowest since 1930, farm stocks of potatoes at March 31 were 11,047,000 cwt., compared with 19,740,000 cwt. the previous year, the report said. The reductions were general throughout the maritime and eastern provinces. In addition the report said 2,249,700 cwt. or 6.6 per cent. of the 1935 crop were not of merchantable quality. This compared with 2,176,000 cwt. or 5.1 per cent. of the 1934 crop.

Before the bureau report was issued, M. G. McNeely, president of the Prince Edward Island Associated Shippers, said he believed Canada would be faced with an "absolute potato famine before May 1." Prince Edward Island had the "only potatoes in the maritime provinces," he said. New Brunswick's supply had run out as had surplus stocks in other potato growing provinces.

Italian People Discontented

Becoming Hostile To Fascist Regime Says Expelled Writer

London.—The Italian people have become increasingly hostile to the Fascist regime, whose war policy, even though victorious, has "impoverished the country," Giovanni Giglio, former Rome correspondent for the Daily Herald, declared in that newspaper.

Giglio, who was recently expelled from Italy by Premier Mussolini's government, emphasized the Italian masses' conviction that Il Duce's African adventure is driving them to ruin.

"They understand," Giglio asserted, "that whether war brings them victory or disaster, their country will be completely pauperized and that for the next 20 years at least Italy's exports will be negligible."

The rise in the cost of living has been a large factor in popular discontent, the writer stated.

GREAT ACTIVITY IS EVINCED IN MINING INDUSTRY

Ottawa.—Mines Minister Cregar announced completion of 15 preliminary reports based on last year's \$1,000,000 geological survey program and said Canada mining, prospecting and exploration companies this year would be able to send men to the field equipped with a greater wealth of information than ever before.

The coming season, the minister said, promises to be the most active in the history of the Canadian mining industry and it will provide the first opportunity of testing the value of such exploration projects as that launched by the government last year. Those projects sent to the field close to 190 field parties comprising about 1,000 men.

Mr. Cregar said the information gained by the parties "will be a powerful factor in mineral development for many years to come." He emphasized that the reports already available had been rushed and turned out in mimeographed form with provisional maps to be used by prospectors planning an early start of the season.

Other reports are being rushed to completion now. The minister said that "the demand for the reports suggests that the many areas recommended for prospecting will receive considerable attention."

In a resume of the work the minister said the reports detailed work in four areas in Quebec, three in British Columbia, two in Ontario, two in Saskatchewan, and one each in Alberta, Manitoba, Yukon and the Northwest Territories. Many thousands of square miles of favorable prospecting ground, much of which has received little or no attention, have been defined and vital geological knowledge has been gained on areas now being actively prospected and developed.

A large, readily accessible area in Yukon is defined in one report as practically virgin prospecting territory. Beyond a limited amount of placer gold prospecting, and some more or less incidental prospecting for lead or gold deposits, the area has apparently been largely neglected.

Approximately one-third of the 10,000 square miles of territory examined in the Yukon-Kwena river region, Northwest Territories, is reported excellent prospecting ground for precious metals.

SURVEYS TO BE CONDUCTED ON A WIDE SCALE

Ottawa.—The intensive surveys program of the Dominion department of mines, inaugurated last summer, will be continued this year, departmental officials said.

This will be welcomed by university students anxious for work during the summer holidays. Last year about 800 science undergraduates were given jobs in this work and it is expected almost as many will be needed this year.

The surveys will start earlier this season. The money was not available last year until late in June and the parties were not in the field until July.

The vote last year was \$1,000,000 and all but \$150,000 spent. This balance is available for this year with a vote of \$150,000 in the main estimates, bringing the total up to \$500,000. Of last year's vote, however, \$200,000 was spent on equipment for the 190 parties. This equipment will be available this season so that if there is no further vote in the supplementary estimates there will be almost as much money available for actual survey work as last season.

Last year 800 boys with some 200 experienced men were sent into the widest country from the Atlantic to the Pacific. Only one life was lost, a regular employee of the department was drowned. Another man working in northern British Columbia had his leg broken and had to be taken by aeroplane to civilization. Otherwise the entire project was remarkably free from accidents.

One project seeks information on water supplies in certain sections of Saskatchewan.

More Sabotage Suspected

Flywheel Ropes Severed On Machine In Sheffield Factory

London.—The Daily Mail said another case of suspected sabotage in connection with defences was being investigated at Sheffield.

This attempt, the newspaper said, was an effort to sever the ropes of a giant flywheel in the engine room of a factory engaged in the manufacture of steel and wire for aircraft and torpedo boats.

"There is no doubt if the speed of the flywheel were increased without discovery, there would have been terrible havoc," the paper quoted Arthur S. Lee, one of the heads of the manufacturing company as saying. "The whole plant would have been smashed."

Ethiopia Needs Money

Is Planning To Float Loan In Great Britain

London.—A public loan to aid Ethiopia in its war against Italy, amounting to £500,000 (\$2,500,000), will be floated here soon, it was reported here in financial circles.

Servicing of the obligation will be assumed by the Bank of Ethiopia, financial sources indicated. The loan will bear six per cent interest. The bonds, nominally worth £100 (about \$500), will be issued at \$95. They will mature in 1941.

Alberta's Fuel Oil Tax

New Act Passed By Legislature Is Effective May 1st

Edmonton.—The new fuel oil tax act passed at the last session of the legislature, under which the provincial government expects to raise \$200,000 additional revenue this year, is to be effective on May 1.

The tax is broadened to cover all lower grades of fuel oil. The tax is seven cents per gallon, with a rebate of six cents when the fuel is used for farming or industrial purposes.

Newspaper Man Dead

London.—The death is announced in Glasgow at the age of 74, of John Westwood Oliver. Fifty years ago he was one of the first newspapermen to travel across Canada on the newly-built Canadian Pacific Railway. He wrote a number of special descriptive articles for Scottish newspapers.

Apostle Appointment

Vatican City.—Mgr. Turqueti, apostolic vicar of Hudson Bay, was named superior of the St. Mary Immaculate missionaries working in his vicariate.

FLEMING'S FOLLY

—BY—
LAWRENCE A. KEATINGE

SYNOPSIS

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link and Klugo stay behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread". Buzz shoots at Fleming in an uncontrollable fit of anger, but Buster Townsend, Link's foreman, is shot in the stomach, and Fleming is injured. Buzz is arrested and sentenced to three years' imprisonment.

Helen and Fleming form a partnership to provide irrigation for their own properties.

Fleming goes home and studies the plans drawn by Torney to learn whether they could be adapted to a smaller scheme suitable for his and Helen's land, and is satisfied it could be done. Feeling cold, he lights the fire and there is an explosion that breaks the house, burns it and the plans and renders Link unconscious. He is rescued from the blaze by an employee.

Helen and Link ride to Rawhide for supplies and to obtain funds to carry out the dam project. They meet Roper, who greets Helen and offers to shop with her. Link goes to see the Sheriff, who tells him Buzz Hamilton has been paroled, and would arrive on the incoming stage.

Buzz Hamilton arrives back in Rawhide while Fleming and Helen are in the bank getting a loan for payment of wages for work on the dam. Roper Klugo and Jackpot Mell meet him and he goes into the saloon with them. By the time his sister and Link come from the bank, Buzz has had several drinks. Roper has distorted the facts concerning the dam proposal to Buzz, making it appear that Link was trying to ruin him. Buzz, inflamed with liquor and anger, tries to throttle Fleming, but is thrown to the floor. Then Helen appears and tells Fleming she has been robbed of the \$800 they had obtained from the bank.

On their arrival home they were met by a couple of Link's workmen, who told Fleming that there was a strike at the dam, and that the men were afraid they would not get their wages. Link told them of the robbery and promised them their money as soon as possible. The men reluctantly returned to work.

(Now Go On With The Story)

CHAPTER XII

Half an hour after the irrigation dam workers had concluded to return to their toil, Fleming emerged from the ranch house at sound of a horseman approaching. He recognized Marty Bush, the local cattle agent. Startling to meet him, Link

Bush made no reply for a moment. "I'd like to see you hold your beef another ten days, Link. I've studied the market quite some time now, and it's my judgment you'd get more money. Steers for market ain't so plentiful, but it won't be reflected in price till shipments sag under last year."

"Marty, just between us—and I wouldn't say this to another man in the county—Helen and I have to sell now. We've got to have cash, or else . . ." He gestured significantly. "Hm. Heard about her gettin' robbed of the eight hundred?" The agent cast a sidelong glance at Link. "Hit you pretty hard?"

Fleming nodded. "Look here," Marty proceeded, "I want to see you get top price for your beef because you really need it so much. Wouldn't like to sell me a hundred acres of that wasteland, would you, Link?"

The youth laid a hand on his friend's knee. "Do you believe in the dam?"

"General opinion's against it, yuh know. And I backed out once."

"I wouldn't sell you a hundred acres of solid gold, Marty, unless you really had faith in it."

There was a full minute of silence. The cattle agent's cherubic countenance wore a troubled look. Finally he said: "Link, would yuh—uh—like to borrow a couple hundred?"

Fleming was wholly surprised. He happened to know that Marty's diminutive wife, Lenore, had just recovered from a costly illness. "Thanks," he said with feeling. "I couldn't give security except my steers. I'm keepin' 'em clear because I'll need every cent they'll bring. And more, I reckon."

Bush scratched his bulbous nose. He dug inside his capakin jacket, produced a two-inch-thick packet, and tossed it on his host's lap. "Ho hum!" he yawned, rising to stretch wearily. "There's five hundred in small bills. Thought that'd suit yuh best. I got to ride over to Pidge Somers' place an' talk beef with him. So lo—"

"Marty! Well," Link confessed, exceedingly pleased as he fingered the money. "I guess you're crazy. But—oh, snucks!" he exclaimed. "I'm shore obliged!"

"No?"—mockingly. "Link, get me Triple H an' Star Loop beef to Holmes Junction early Thursday mornin', and I'll fix you up. Want cash then too, eh? So long, Fleming's Folly! See yuh in bankruptcy court."

While he made off on his horse Link stared at the wad of bills in his hand. Grinning, he went at length to the corral where he transferred his saddle to a skittish mule. Half an hour later he left his mount in a patch of cottonwoods that bordered the heretofore useless valley, and started on foot the remainder of the way to the irrigation dam. It was a rocky, rather steep climb even by the well-worn trail over which every pound of material had to be transported. Link walked along feeling the bulge of the money in his pocket, his step considerably lighter than it had been an hour ago.

On a rocky eminence which overlooked the dam and the broad acres to be irrigated, he saw three figures in conference. Jackpot Mell, the gunman, Roper Klugo, and—yes, it was Gyp Vallie.

Link paused. His fingers encountered that anonymous note he had found. On quick impulse he untied his blue neckerchief. The note was wrapped about his right hand as if it were injured, then strode casually forward.

"Here comes the guy that talks men into workin' for nothin'!" Klugo greeted caustically.

Jackpot smiled his dry, reserved smile. Vallie darted beady eyes for a means of escape but Fleming blocked the only exit. He came on a tolerant look on his tanned face. "Wouldn't put it that way, Roper. The boys know it takes money, and that Helen and I are a little hard pressed right now."

"Yuh'll be harder pressed an' then not pressed at all!" scoffed the thickest rascal.

He meant that bankruptcy would end the project. Link halted sideways to Mell. "Say, Jackpot, will you reach that package out of my pocket? Got my hand between a mare and a corral bar. Jest get that wad of money, will yuh?"

All three stared from Link's hand to his trousers pocket. They exchanged frowns of surprise. "Money?"

"Payroll money, five hundred bucks of it. Oh, by the way," Fleming added carelessly as he accepted the wad from Jackpot, "I wish you'd do me a favor, Roper. Write me a note to Marty Bush, since I can't do it myself with this bad paw."

Klugo tilted back his sombrero and summoned a friendly look that was not deceiving. "Well—shore, I'll write yore note." He produced a

Mr. CAFFEINE-NERVES . . .
he does a fade-out!

stub of pencil and Link gave him a page out of a pocket notebook. Leaning to use a boulder for a desk, the man looked up inquiringly.

"Write this," Fleming requested. "Dear Marty, I'm banking on you to sell those steers Thursday and get me cash instead of a bill of lading, as Miss Hamilton and I have to raise money quick for the dam. I'll meet you at Holmes Junction Thursday morning for it. Just sign my name," he ended. "Much obliged."

He turned to go back to the main trail but could not resist one parting shot. "Glad you let me win that ground three years ago, Roper. Yes sir," he chuckled, "take a good look at the dam and wasteland—yuh can tell it's going to jump from fifty cents to two hundred an acre!"

(To Be Continued)

A Formidable Weapon

Yokohama Police Decide Inch-Long Gun Is Dangerous

Inspired by American toy pistol which a friend had sent him, Ichi Endo, a watchmaker at Yokohama, Japan, manufactured an inch-long, firearm capable of firing real bullets and it landed him in the net of the law. Yokohama police have decided the miniature shooting arm is a real gun which could be turned into a formidable weapon. It will kill dogs and penetrate a two-fifths inch board. Endo sold it to a friend for 60 cents and was engaged in turning out a second one when arrested. He said he made the first weapon in four days and loaded it with tiny lead bullets and powder taken from firecrackers.

Ten thousand flint knives, scrapers and other implements used in Ireland's Stone Age have been unearthed in County Antrim.

Egypt has prohibited the exportation of animals used for agricultural or transportation purposes.

As a young man, the late Dr. R. V. Prince, practiced medicine in Pennsylvania and was known for his great success in alleviating disease. Finally he moved to Buffalo, N. Y., and put his ready-to-use form in Golden Medical Discovery, the well known tonic. This strength-builder is made from a formula which Dr. Prince found most effective when in private practice. It's an alternative extract from native roots.

It helps to cleanse the system, and tends to keep the consumer fresh and clear, aids digestion, acts as a tonic, and is a most effective tonic. New size tablets 50c. Liquid \$1.00 and \$1.35.

What this Doctor did for Humanity

Returns To Ottawa

Dominion Carillonneur Has Studied Fifteen Months in Europe

The bells that ring out from the memorial tower, and play to work bustling members of parliament and dignified Senators, are again under the direction of Percival Price, Dominion carillonneur. He has returned to Ottawa from a 15-months sojourn in Europe, where he used the Pulitzer prize granted him for his "Symphony of the St. Lawrence" for further study and research of music.

High up in an office nestled like an eyrie in the tower, Mr. Price told of research in medieval city archives for ancient music of ancient monastary chimes modern monks had forgotten how to play; of the beauty of opera in Warsaw and of the interest expressed in Canada's carillon on Parliament Hill.

So interested are many musicians, preparations are underway for an international congress of carillonneurs in Ottawa this summer. English, French and Belgian authorities intend to send representatives. During most of his time in Europe, Mr. Price studied with Weingartner in Vienna. He spent six weeks in Poland, visited Rome and found in the Brussels archives belonging to a carillonneur of 1648. Equally usable clavichord music was found in the Bodleian library in Oxford.

Reduce Relief Lists

Tourist Trade Expected To Give More Employment To Women

A statement issued by the Dominion tourist bureau that the coming season is expected to be one of the most successful since the boom years prior to 1929, foretells a great reduction in the number of Canadian women on relief lists.

Out of more than 80,000 employable women on relief, according to statistics presented by Labor Minister Rogers in the House of Commons during a speech on the proposed national employment commission, nearly half come under the heading of domestic, hotel, restaurant and similar occupations. The tourist bureau believes many women under these headings will be re-employed when the tourist season gets underway.

Gold output of the Transvaal in Africa last year was 10,776,000 ounces.

Social tact is making your company feel at home, even though you wish they were. 2147

Little Helps For This Week

Seekest thou great things for thyself? Seek them not. Jeremiah 14:5.

I would not have the restless will. That hurries to and fro. Seeking for some great thing to do. Or some great thing to know; I would be treated as a child, And guided where I go.

Be little and then you will be content with little, be not overwise or over eager in your own willing or desiring, and by degrees come to the knowledge of your Guide who will lead you step by step in the path of life, and teach you to follow. Be still and wait for light and strength. Sink into the sweet and blessed littleness where you live by grace alone. Contemplate with delight the holiness and goodness of God, which you do not find in yourself. How good it is to be nothing when God is all.

A Suitable Reward

"A three-happy stamp, please," said the old lady to the assistant in the post office. "And, by the way, haven't I seen you somewhere before?"

"Yes," said the assistant. "I was the man who rescued you when you fell into the river last summer at Richmond."

"Well, well," exclaimed the old lady, "in that case, I'll have twelve three-happy stamps, six penny ones, and a postal order for five shillings."

Of the 285,147 motor vehicles tested by Connecticut's official inspection system last year, 151,991, or 53 per cent, failed to pass.

BACKACHE

IF you have backache, dizzy spells, headaches, do not neglect your kidneys. Take Gin Pills for prompt relief at the first sign of these symptoms. You will feel better, look better—be better, if your kidneys are functioning properly.

Wm. Lant has this week sold two McCormick-Dering Tractors. The proud owners are Ira Heywood and Lee Ableman.

Case machinery and Gordon Agencies

Mr. and Mrs. Norman Mackie of the Imperial Bank Staff Calgary, and Miss Jean Colliett of Calgary, were weekend visitors in town, the guests of Miss Alice Colliett.

Sending money? Why not use Express Money Orders. We sell them.—Chronicle.

Mr. and Mrs. E. Bills and family and Mr. and Mrs. D. J. Hall and family visited Mr. and Mrs. W. H. Miller last weekend, at Oida. They report all the Millers as being in good health and Bill feeling almost up to standard.

Auto Insurance and T. Tredaway

This year the Madden Football Club has entered the B-weden Soccer League, comprising teams from Bowden, Oida, Eagle Hill, Didsbury and Madden. Some good games are anticipated and to you Soccer Fans is extended an invitation to come and see Madden do their stuff. (It is to be hoped that the Club will supply the Chronicle with a list of fixtures as soon as possible, Ed.)

Cards of Thanks

Lillie Blough wishes to thank all her friends for the fruit, flowers and gifts received during her illness.

— * —

Mr. and Mrs. Ivan S. Vance of Madden, Alberta, wish to express their thanks and appreciation to the many friends, relatives and neighbours, who showed sympathy and kindness during their recent and bereavement; also for the many beautiful floral tributes.

Misfortune Befalls Local Girl

Clara Metherall had the misfortune to receive a fracture of the Humerus in her left arm last Monday while driving home from school. The pony she was driving took fright and bolted. Clara tried to jump, obtaining a fracture of the arm.

Dr. Whillans was summoned, and set the break, also taking the young patient to Calgary for X-Ray examination.

Clara is now at her home, and the sympathy of her friends goes out to her at this time.

Estray

Strayed, on the premises of George Murdoch, Crossfield, N.W. 1-4, 26-28-1 W5th M.

One aged Saddle Horse, with pulled tail, blazed face, white front foot, has been shod on front feet. Branded right shoulder S. Bears also McLean Auction mark No. 22 on hip.

For further information apply to T. Tredaway Secretary, Village of Crossfield.

Dr. and Mrs. S. H. McClelland, Mr. and Mrs. G. Y. McLean and G. A. Williams took in the big hockey game at Calgary Monday evening last.

After the Honeymoon
Is the time when domestic help becomes precious. A "Wanted Ad." in our paper will solve the problem.
Desirable people who want employment appreciate the value and consult the "Wanted" ads.

Village of Crossfield Notice of Preparation of Assessment Roll Annual Assessment 1936

Notice is hereby given that the assessment roll of the village of Crossfield for the year 1936 has been prepared and is now open for inspection at the office of the secretary treasurer from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday, except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessed value placed upon any property, must within thirty days after the date of this notice lodge a complaint in writing with the secretary treasurer.

Dated this 17th day of April, 1936.

T. Tredaway,
Secretary-Treasurer.

Activities of Societies Etc.**Ladies Aid**

Remember, Saturday first is the Tea, Bake and Needlework Sale. It commences at 3 p.m. and will be held in the Armouries. YOUR PATRONAGE WILL CERTAINLY BE APPRECIATED.

The usual meeting of the Ladies Aid will be held at the United Church Manse. This meeting will take the form of a Mothers Day meeting, and a large turnout is requested on May 6.

Midget Ball

Time is drawing near for the opening of the season and the members will be well advised to keep in touch with the Team Managers, Messrs Carmichael and Lim.

The All-Stars, chosen from the two teams, will be under the management of G. A. Williams and D. J. Hall. So boys, it is up to you to do your utmost to make a place in the All-Stars, no favouritism will be shown and places will be granted on playing merits only.

We would draw to the Midgets attention the fact that Mr. W. Lant is arranging for some very fine fielders mitts, and any boy thinking of investing in a glove would be well advised to look over Mr. Lant's stock before purchasing elsewhere.
